EXECUTIVE PROFILE

Senior Enterprise AI Solutions Architect and AI Transformation Executive with 35+ years of international experience leading enterprise technology modernization, AI strategy, platform architecture, analytics, ERP transformation, and digital innovation initiatives across Saudi Arabia, GCC, and India.

Proven expertise in designing and operationalizing enterprise AI solutions, Generative AI platforms, AI agents, LLM-powered applications, intelligent automation systems, and decision intelligence frameworks that drive measurable business outcomes.

Experienced in defining AI platform architectures, evaluating technology ecosystems, establishing AI governance frameworks, and leading enterprise-scale AI transformation initiatives. Strong track record partnering with CXOs, consulting teams, and technology stakeholders to translate AI capabilities into operational efficiency, ROI, and strategic value.

Skilled in AI Solution Engineering, AI Platform Architecture, Enterprise Integration, AI Governance, Machine Learning, Predictive Analytics, Cloud-enabled AI Ecosystems, Agentic AI Workflows, and Enterprise Modernization Programs.

CORE COMPETENCIES

Enterprise AI & Transformation

- Enterprise AI Strategy
- AI Transformation Programs
- Generative AI Solutions
- Large Language Models (LLMs)
- AI Agents & Agentic Workflows
- AI Solution Architecture
- AI Governance & Responsible AI
- Enterprise Modernization
- Intelligent Automation
- AI Adoption Frameworks
- Digital Transformation
- Business Process Optimization

Data & Analytics

- Machine Learning
- Predictive Analytics
- Statistical Modelling
- Business Intelligence
- Decision Intelligence

- Research Analytics
- Data Visualization
- Advanced Analytics
- Data Governance
- KPI Framework Development

Leadership & Consulting

- Executive Advisory
- Stakeholder Management
- CXO Engagement
- Strategic Planning
- Cross-functional Leadership
- Innovation Management
- Capability Building
- Change Management
- Client Consulting
- Workshop Facilitation

PROFESSIONAL EXPERIENCE

Dean Research & Development & CEO

AITekNix Center of Excellence | Mumbai, India

2025 – Present

Leading AI innovation, digital transformation, workforce development, and research advisory initiatives focused on Generative AI, Machine Learning, Analytics, and Enterprise AI adoption.

Key Contributions:

- Designed AI transformation roadmaps and AI capability-building frameworks for educational and professional organizations.
- Developed AI-enabled decision-support models utilizing predictive analytics and business intelligence methodologies.
- Conducted executive workshops on Generative AI, Prompt Engineering, AI Governance, and responsible AI implementation.
- Advised institutional leaders on AI adoption strategies, digital transformation initiatives, and innovation programs.
- Led development of AI literacy ecosystems supporting workforce readiness and future skills development.
- Facilitated stakeholder engagement across leadership teams, educators, researchers, and technology professionals.

ENTERPRISE AI ADVISOR & RESEARCH CONSULTANT

Saudi Arabia & India, 2018 – Present

Providing strategic advisory services in AI adoption, analytics, digital transformation, research intelligence, and technology-enabled organizational development.

Key Contributions:

- Guided institutions on AI strategy, data-driven decision-making, and digital transformation initiatives.
- Designed analytics frameworks supporting strategic planning and organizational performance improvement.
- Delivered AI transformation workshops focused on Generative AI, Machine Learning, and intelligent automation opportunities.
- Collaborated with leadership stakeholders to identify AI use cases and innovation opportunities.
- Supported development of AI governance and ethical AI awareness programs.
- Conducted enterprise-level assessments related to technology adoption and organizational readiness.

Senior Strategic Advisor, Faculty Member & Research Mentor

King Abdulaziz University

Jeddah, Saudi Arabia, 1990 – 2023

Served as a strategic advisor, educator, researcher, and transformation advocate supporting academic excellence, digital innovation, and technology-enabled modernization initiatives.

Key Achievements:

- Led technology-enabled transformation initiatives supporting modernization of academic and research ecosystems.
- Advised institutional leadership on data-driven decision-making, analytics adoption, and digital transformation programs.
- Designed and delivered programs in Artificial Intelligence, Machine Learning, Data Analytics, Computer Science, and Statistics.
- Developed decision-support frameworks leveraging predictive analytics and business intelligence methodologies.
- Collaborated with cross-functional stakeholders across departments to improve operational effectiveness and educational outcomes.
- Promoted adoption of emerging technologies including AI, analytics, automation, and digital learning platforms.
- Facilitated executive and professional development workshops on AI, innovation, analytics, and digital transformation.

ENTERPRISE AI & DIGITAL TRANSFORMATION PROJECTS

Generative AI & Intelligent Knowledge Systems

- Designed AI-enabled frameworks supporting intelligent content generation, knowledge management, and research productivity.
- Applied prompt engineering methodologies and Generative AI technologies to improve decision support and operational efficiency.

AI Strategy & Transformation Frameworks

- Developed AI adoption models supporting responsible AI implementation and workforce transformation.
- Created governance-oriented frameworks promoting ethical, explainable, and human-centered AI deployment.

Predictive Analytics & Decision Intelligence

- Built analytics-driven decision support systems using Python, R, SPSS, SQL, Tableau, and Power BI.
- Supported strategic planning through forecasting, trend analysis, and predictive modelling initiatives.

ERP & Enterprise Systems Research

- Conducted doctoral research focused on Enterprise Resource Planning (ERP) adoption, technology integration, and organizational transformation.
- Evaluated enterprise technology frameworks supporting operational excellence and business process optimization.

GIS & Intelligent Decision Support

- Developed GIS-based decision-support systems integrating spatial intelligence, analytics, and technology-enabled problem solving.
- Applied advanced analytical methodologies for public safety and strategic planning use cases.

TECHNOLOGY EXPERTISE

Artificial Intelligence

- Generative AI
- Machine Learning
- Predictive Analytics
- Deep Learning
- Explainable AI (XAI)
- AI Governance
- Human-Centered AI
- Intelligent Decision Support Systems

Programming & Analytics

- Python
- SQL
- R Programming
- SPSS
- SmartPLS
- Tableau
- Power BI
- Advanced Excel Analytics

Enterprise & Transformation

- ERP Systems
- Digital Transformation
- Business Intelligence
- Data Governance
- Enterprise Analytics
- Strategic Planning
- Process Improvement

Cloud & Enterprise Platforms

- Microsoft Azure AI
- AWS AI Services
- Google Cloud AI & Enterprise APIs
- Cloud Architecture
- Enterprise Data Platforms
- AI Infrastructure
- Enterprise System Integration
- ROI-driven AI Transformation
- Enterprise Modernization
- Client Advisory
- Solution Demonstrations
- Technology Evaluation
- Enterprise Capability Building

EDUCATION

Postdoctoral Research

Innovation & Infrastructure Development

Islamic Development Bank, Saudi Arabia

PhD – Enterprise Resource Planning (ERP)

Singhania University, India

Second PhD – Geographic Information Systems (GIS)

Atlantic International University, USA

MBA - University of Mumbai

MSc Applied Mathematics - University Rank Holder

Diploma in Computer Software & Techniques -University of Mumbai

CERTIFICATIONS

- Generative AI Fundamentals
- Machine Learning Fundamentals
- Python for Data Science
- Prompt Engineering
- AI Governance & Responsible AI
- Tableau & Power BI Analytics
- Business Intelligence & Analytics
- Research Analytics

AWARDS

- AMP National Award for Excellence in Education (2020, 2023, 2024)
- Best AI Use Case Award – Education Innovation
- Dr. APJ Abdul Kalam International Award of Excellence
- Global Academic Excellence Award
- Vocational Excellence Award

INTERNATIONAL & MULTICULTURAL EXPOSURE

Possesses extensive international professional experience across Saudi Arabia, GCC countries, and India, working within multicultural academic, technology, research, and educational environments. Experienced in collaborating with diverse stakeholders, including universities, institutional leaders, researchers, educators, students, and professionals from various national and cultural backgrounds.
